Miraculous Benefit RECEIVED FROM Dr. Miles' New Heart Cure.

ELLI P. BABCOCK, of Avoca, N. Y., a veteran of the 3rd N. Y. Artillery and for thirty years of the Babcock & Munsel Carriage Co., of Auburn, says: "I write to express my gratitude for the miraculous benefit received from Dr. Miles' Heart Cure. I suffered for years, as result of army life, from sciatica which affected my heart. In the worst form, my limbs swelled from the ankles up. I bloated until I was unable to button my clothing; had sharp pains about the heart, smothering spells and shortness of breath. For three months I was unable to lie down, and all the sleep I got was in an arm chair. I was treated by the best doctors but gradually grew worse. About a year ago I commenced taking Dr. Miles' New Heart Cure and it saved my life as if by a miracle."

Dr. Miles' Remedies are sold by all druggists under a positive guarantee, first bottle benefits or money refunded. Book on diseases of the heart and nerves free. Address, DR. MILES MEDICAL CO., Elkhart, Ind.

PRESIDENT'S RELIEF PLAN

Preparing to Help the

Schley's Movement at Santiago Believed to Be in Pursuance of McKinley's Policy to Send Aid to the Cubans—Troops at Chiekamanga Disappointed That They Have Not Been Ordered to the Front—The One Hundred and Fifty-Seventh Indiana Leaves for Tampa. News From General Garcia—General War Information.

Cape Haytien, Hayti, June 1.—Advices from Havana say that yesterday afternoon the American fleet at Santiago de Cuba cannonaded the batteries of Morro Castle, La Zecapa and Punta Carda. At the same time, it is added, the American ships engaged with the Spanish warships. The firing was extremely heavy. Indications are that the American fleet has forced an entrance to the harbor.

[Morro Castle is at the entrance of the harbor of Santiago de Cuba. La Zecapa, also shown on the maps as La Zecapa Castle, is a short distance inside the harbor entrance and Punta Carda is situated on a point well inside the harbor of Santiago de Cuba, showing that the American fleet has entered the harbor, according to the Havana dispatches, via Cape Haytien and has engaged the Spanish fleet in those waters.]

Another report says the Santiago cable is still working and that private dispatches from Santiago intimate that there has been a severe fight between the American fleet and the outer fortifications and the Spanish fleet. The fight lasted the greater part of the afternoon. The advantage appears to have been with the Americans.

For ones who climbed Lookout mountain, the entrance of Cape Haytien harbor, yesterday afternoon, declare they heard cannonading, low, but distinct, west and to the north, beyond Tortuga island.

How often you see a man deeply engrossed in his work, full of satisfaction at what he has accomplished in business, ready to go ahead and carry out boundless schemes of achievement, and using up all his strength and nervous power, never pausing to think what unseen danger may threaten him from behind. Mighty few hard-working men ever stop to realize that the headaches and dizzy sensations and feelings of weakness and sluggishness and incapacity that overcome them at times are the forerunners of serious disease.

More men would succeed in carrying out their life purposes if they would put their constitutions in strong, forceful, high condition, without waiting until disease has plunged its axe into their vital organs. If a man who is using up his working vitality faster than his nutritive powers supply it, will use Dr. Pierce's Golden Medical Discovery as an adjunct to his daily meals, it will give the digestive organs power to take hold of the food and extract from it the elements which strengthen the vital organism and build up healthy blood. It revitalizes every organ and tissue of the body; purges bilious poisons out of the circulation; invigorates the nerve centers and the muscular system and makes a man altogether a man—full of ambition, energy and pluck.

Mr. Jos. Henderson Dribben, of 34 Josephine Street, New Orleans, La., writes to Dr. Pierce: "I was ailing for some years, suffering from dyspepsia, a tired feeling and loss of energy and appetite. I tried one bottle of Dr. Pierce's Golden Medical Discovery and found great relief. I took two more bottles, three in all, and one or two bottles of the 'Pellets' when I found myself in good health again. I recommend Dr. Pierce's Golden Medical Discovery to do all that it is claimed to do."

In many cases where constipation is one of the aggravating causes of disease, Dr. Pierce's Pleasant Pellets should be used in conjunction with the "Discovery." They are the simplest and most perfectly natural laxative ever invented.

It is a dealer's business to sell you what you ask for—not what he prefers for selfish profit's sake to sell.

A press correspondent, who was at the signal station about the same time, also heard sounds resembling a cannonade. The wind was in the right direction to carry the detonations to him. It seems certain that the fleet the Haytien gunboat saw passing Cape Maysi, going northward, found its opportunity of turning backward across the front of an opposing force.

FROM ANOTHER SOURCE.

Port-au-Prince Dispatch Says Sampson Bombarded Santiago.

Port-au-Prince, Hayti, June 1.—Late yesterday afternoon an American squadron composed of 14 war ships, of which the cruiser New York displayed the flag of Rear Admiral Sampson, and a number of torpedo boats, began a bombardment with heavy guns of the forts and the harbor of Santiago de Cuba. The American fire was directed principally against the forts and the harbor.

The forts of Morro Castle, La Zecapa and Punta Carda suffered especially. The cannonading was very persistent

tional to those mentioned yesterday. The Southern and the Western and Atlantic railroads moved four regiments, two each, this morning. They were the First District of Columbia, One Hundred and Fifty-seventh Indiana, Second New York and the First Ohio Infantry. The Fifth Maryland, Sixty-ninth New York, Third Pennsylvania and First Illinois will leave tomorrow.

Orders have been issued and are expected today from Washington that all regiments of volunteers must be recruited to the full strength of 1,807 officers and men, and recruiting officers are to be detailed at once to secure these recruits. These recruits will absorb nearly 40,000 of the president's second call for volunteers.

Inspector General Breckinridge yesterday reviewed the Third division of the first corps. The division presented at review a more satisfactory appearance than either the First or Second inasmuch as the regiments in the Third division have more generally been equipped and uniformed than the others. It was a sight that warmed up the martial spirit of the old warriors who witnessed it and one officer in the enthusiasm of the moment said that "No nation on earth could make such a showing in 30 days time."

The Second Nebraska, the Pennsylvania and the Ohio regiments have received their pay from their respective states for the time they were in camp prior to being mustered into the government service. The amount paid the Pennsylvania troops is about \$90,000, the payroll of the Ohio troops amounting to about \$150,000, while the Nebraska only received \$5,960. The West

Virginia and one regiment of Illinois troops are to be paid this week, the total payrolls amounting to about \$300,000.

The First Mississippi infantry, comprising 1,000 officers and men, in command of Colonel George Govan arrived yesterday. An incident on the arrival of the Mississippians created considerable enthusiasm. When their trains pulled in at the Central depot there were several hundred of the northern and western volunteers there waiting for the park trains. The Southerners got out of the train and gave their northern comrades the "rebel yell" by way of assuring them that they were ready to fight with them to the last ditch.

The First Ohio cavalry has received their full complement of uniforms, bridles, saddles, etc. They have received only a part of their horses. It was announced that by Monday they will be fully equipped, including horses and arms.

The First cavalry, Illinois volunteers, has arrived. Colonel E. C. Young is in command. The arrival of the First Illinois completes the cavalry brigade here, the other two being the First Ohio and Colonel Grigsby's cowboy regiment.

NOT APPREHENSIVE.

Naval Officers Think Little of the "Formidable" Cadiz Fleet.

Washington, June 1.—The frequent reports from Spain through other countries to the effect that a formidable fleet is being prepared at Cadiz to sail for the West Indies in aid of Cervera, causes little apprehension here. Naval officers, through private means of communication, have pretty well satisfied themselves that the Cadiz fleet is a paper fleet. In other words, its offensive power is altogether illusory. More than half of the war vessels whose names appear so frequently in the press dispatches as formidable war craft are of antiquated type.

In addition most of these vessels are broken down in engines and boilers. In their reckless disregard of the simplest precautions for the preservation of the complex machinery of a warship, the Spaniards are excelled by no people and it is well known that they have been obliged to hire British engineers to run their engines whenever they did run. There are some vessels, although a very few, at Cadiz of modern type but they are not numerous nor powerful enough to give our navy any serious concern.

Of course it is not to be understood from this that our naval officers are neglecting to take precautions against surprise at Santiago. They have thrown scouts well out to the eastward of Cuba so that they may receive quick notice if any of the Cadiz fleet was foolish enough to have started a day or two ago for the West Indies, as is now reported from Europe.

NEWS FROM GARCIA.

Has Ten Thousand Men Well Equipped and in Good Spirits.

Key West, June 1.—Couriers from Cuba yesterday brought highly encouraging reports from General Calixto Garcia's army. Garcia alone, it is said, has 10,000 men, better equipped than ever before, except in the matter of clothing, and they are in excellent spirits. Five thousand men, it is added, occupy territory along the northern coast near Manila. The Spanish troops have withdrawn to Santiago, Holguin and Mazanill and General Garcia still holds his headquarters at Bayamo.

General Mario Menocal has been

DISAPPOINTED.

Number of Regiments Who Expected to Be Ordered to the Front.

Chickamauga National Park, Ga., June 1.—Much to the disappointment of a number of volunteer regiments here who think they are ready to go to the front no orders have been received for the movement of our commands addi-

tion to those mentioned yesterday.

The Southern and the Western and Atlantic railroads moved four regiments, two each, this morning. They were the First District of Columbia, One Hundred and Fifty-seventh Indiana, Second New York and the First Ohio Infantry. The Fifth Maryland, Sixty-ninth New York, Third Pennsylvania and First Illinois will leave tomorrow.

Orders have been issued and are expected today from Washington that all regiments of volunteers must be recruited to the full strength of 1,807 officers and men, and recruiting officers are to be detailed at once to secure these recruits. It was a sight that warmed up the martial spirit of the old warriors who witnessed it and one officer in the enthusiasm of the moment said that "No nation on earth could make such a showing in 30 days time."

The Second Nebraska, the Pennsylvania and the Ohio regiments have received their pay from their respective states for the time they were in camp prior to being mustered into the government service. The amount paid the Pennsylvania troops is about \$90,000, the payroll of the Ohio troops amounting to about \$150,000, while the Nebraska only received \$5,960. The West

PEURO APPRAISED.

First Prize Captured Formally Seized by the Government.

Key West, June 1.—Fifty-three cadets from the naval academy at Annapolis, composing the first class, which has not yet graduated, arrived yesterday afternoon on the City of Key West and will be distributed among the various ships of the fleet.

The appraisement of the prize ship Pedro, which has been formally seized by the government, has been made by the naval board of appraisement appointed by the secretary of the navy. Its value has been fixed at \$200,000. The Pedro was captured by the flagship New York off Havana the first day of the blockade. She was first sighted by the Mayflower, which informed the flagship, whereupon the latter put off and captured her.

Mr. W. J. Taylor the British consul here has received a cablegram from Mr. Alexander Gollan, British consul general at Havana, in the following terms: "Please warn British correspondents of newspapers who may be in Key West with the intention of coming to Cuba, to avoid attempting to do so, and especially by the means adopted by Knight, Robinson and Whigham, all of whom were arrested and are now in prison. It is needless to say that this recommendation applies with still greater stringency to correspondents who are American citizens. Give all possible publicity to this."

The three correspondents named in the despatch crossed to Cuba in newspaper tugs and landed from small boats, only to be immediately captured.

Behind Closed Doors.

Washington, June 1.—The senate remained in secret executive session for three hours yesterday. The entire time was given to a rather free discussion of the Hawaiian question based on a motion declaring it to be the sense of the senate that the question of annexation should not be discussed in open session. At the conclusion of the debate the senate by viva voce decided not to pursue the subject further except behind closed doors.

RECIPROCITY.

Agreement Signed Between United States and France.

Washington, May 31.—The United States and France have concluded the first commercial agreement entered into under section 111 of the Dingley tariff law. The negotiations were concluded when Ambassador Cambon, in behalf of France, and Hon. John Kasson, reciprocity commissioner for the United States, affixed their signatures to the formal agreement. The particular advantages secured by the United States are on meat products and land compounds, France reducing her rates one-half on meat products and about one-third on land compounds. The chief benefits to France are in reduction in rates on brandies, stillied wine, vermouth and works of art.

WEARY OF THE WAR

Spain Would Be Willing to
Accept Intervention by
the Powers.

UNDER SHAM PROTEST

Independence Would Be
Granted to Cuba.

The Island Has Always Been a Drag on the Mother Country and Drained It of Treasure and Blood—Silveira Party Pledged to a Policy of International Reform and Reconstruction.

Madrid, June 1.—Rumors afloat point to the fact that the Spaniards are weary of the war. Senor Sagasta's allusions in congress to an honorable peace have been taken as implying Spain's willingness to accept the mediation of the great powers. Senor Romero y Robledo promptly snapped out: "People in a state of war do not talk peace, honorable or otherwise, unless they are bent that way. Seeking peace means carrying on a half hearted war."

Senor Gamazo's very blunt refusal to take on his shoulder responsibility for the political course of the cabinet, confining his connection therewith to the administrative functions of his portfolio—public works—points in the same direction.

Last night a correspondent had a conversation with a distinguished member of the Silveira party, who very candidly admitted that it would be a good thing for Spain if she were free from Cuba.

"Cuba," he said, "has always been a drag on Spanish resources. We get nothing as a nation from it, but it has on the contrary drained us of our best blood and money. True, in the old evil days individuals made large fortunes out there, but their rapacity, greed, bad government and cruelty have brought nothing but shame on the mother country. It will, therefore, be good for Spain when the last connecting link is broken. Of course any proposal to cut the cable will be most unpopular for the government which has had the boldness to propose it, but sooner or later it must come to that."

It is believed that should the powers now intervene Spain will, under sham protest to save her face, consent to Cuban independence, provided the power guarantee that island's independence from the United States. Should this come about the new Sagasta ministry, composed as it is of very discordant elements, will dissolve of itself, if not assisted in that operation by the sham as well as by the real indignation of different sections of the population. The way will thus be cleared for a Silveira ministry, pledged to a policy of international reform and reconstruction.

There is little doubt as to Senor Silveira being one of the most far sighted and capable Spaniards in public life today. In addition to his great ability he is believed to be thoroughly honest and to be supported by men who are all anxious to purify the home administration from the blots which have made it a by word abroad and a laughing stock at home.

BARCELONIANS.

They Would Like to Invite the Yankee Admiral to Dinner.

Barcelona, June 1.—All Barcelona is heartily sick of the war. The people regard it as merely a continuation of the Cuban war, which has paralyzed business for three years. Recently the government called upon the manufacturers here to voluntarily contribute \$60,000 for the defense of the town. They replied that they had already paid most of the expenses of the government and of the defense of Spain, adding: "If the Yankee admiral comes here, we shall invite him to dinner."

Alongside the ironclad Numancia, orders to hurry the preparations on which have just been received, lies the Covadonga of the Compania transatlantica line. Her masts and two funnels have been painted black and she is ready to go to Cadiz for her armament.

As additional defenses here the government is hastily erecting six large guns, dated 1881, which have just been mounted at Barcelona. Platforms for three enormous guns are being erected with all speed. The guns will cover the harbor mouth, with a range of 200 yards.

LONGEST CURVE.

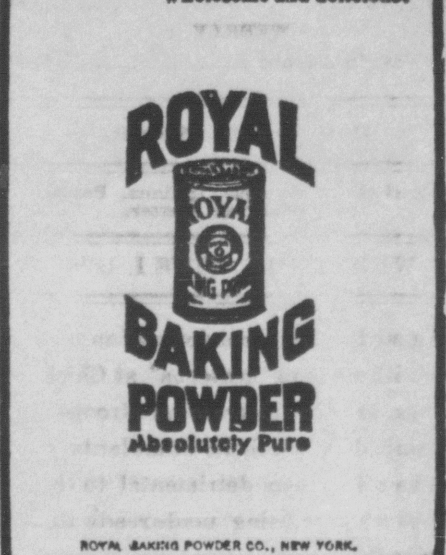

It Is Located One Mile From Upper Sandusky.

Upper Sandusky, O., June 1.—The largest railroad curve in Ohio, possibly in the United States, starts one mile south of here on the line of the Columbus, Hocking Valley and Toledo. It is two and one-half miles in length. Should the circle of which the curve is a part be completed a train would have to travel 29 miles to get around to the starting point. The curve is so extensive and so scientifically constructed that trains run at as great speed as 60 miles per hour over it.

His Will to Be Contested.

Philadelphia, June 1.—The will of the late Thomas Evans, the eminent dentist who died in Paris last October, will be contested by his niece, Clara E. Davis and other relatives.

FLOUR ADULTERANT.

Warning Sent Out by a Food Commissioner.

Columbus, O., June 1.—State Food Commissioner Blackburn is sending out a communication to his deputies warning them to be on their guard against an article now in the market which is designed for the adulteration of flour. He states that it is called "mimerline," and is manufactured at Greensboro, N. C. The commissioner says that it is a silicious mineral and detrimental to health. It is thought to be principally composed of some kind of clay, dried and powdered very fine.

WERE MURDERED.

Ambassador Hay Receives Confirmation of Killing of Rev. and Mrs. McGrew.

Washington, June 1.—The department of state has been advised by Ambassador Hay that the colonial office, Great Britain, has been informed through the governor of Sierra Leone of the murder of Rev. and Mrs. McGrew at Paines, about May 8. For a time it was hoped from the reports received that Mr. and Mrs. McGrew had escaped by reason of being 40 miles away from the scene of the massacre as first described. They were Ohio people.

LEAP TO DEATH.

Charles Sims Jumps From a Railroad Bridge, a Distance of 85 Feet.

Louisville, June 1.—Charles T. Sims, a bricklayer, aged 30, was drowned in the river here. He bet his friend, Jom Lapaille, 50 cents he could jump from the K. and I. bridge to the water, a distance of 85 feet. The men went out on the bridge and Sims stripped for the jump. He climbed up on the railing, and shot downward head foremost. When near the water he turned over several times. He was instantly killed.

Took the Dare.

Chillicothe, O., June 1.—Thomas Wilson and Albert Merchant had been shooting an old revolver and supposing it empty, Merchant laughingly pointed it at Wilson. The latter dared him to pull the trigger, and an instant later a ball penetrated Wilson's cheek and passed entirely through his neck, coming out at the back.

I suffered for years, as result of army life, from sciatica which affected my heart in the worst form, my limbs swelled from the ankles up. I bloated until I was unable to button my clothing; had sharp pains about the heart, smothering spells and shortness of breath. Seventh Indiana Leaves for Tampa.
News From General Garcia—General
War Information.

Cape Haytien, Hayti, June 1.—Ad-
vices from Havana say that yesterday
afternoon the American fleet at San-
tiago de Cuba cannonaded the batteries
of Morro Castle, La Zecapa and Punta
Carda. At the same time, it is added,
the American ships engaged with the
Spanish warships. The firing was ex-
tremely heavy. Indications are that
the American fleet has forced an en-
trance to the harbor.

[Morro Castle is at the entrance of the
harbor of Santiago de Cuba. La Zecapa,
also shown on the maps as La Zecapa Cas-
tle, is a short distance inside the harbor
entrance and Punta Carda is situated on
a point well inside the harbor of Santiago
de Cuba, showing that the American fleet
has entered the harbor, according to the
Havana dispatches, via Cape Haytien and
has engaged the Spanish fleet in those wa-
ters.]

Another report says the Santiago
cable is still working and that private
dispatches from Santiago intimate that
there has been a severe fight between
the American fleet and the outer fortifica-
tions and the Spanish fleet. The fight
lasted the greater part of the afternoon.
The advantage appears to have been
with the Americans.

Persons who climbed Lookout moun-
tain, the entrance of Cape Haytien
harbor, yesterday afternoon, declare
they heard cannonading, low, but dis-
tinct, west and to the north, beyond
Tortuga island.

How often you see a man
deeply engrossed in his
work, full of satisfaction at
what he has accomplished,
in business, ready to go
ahead and carry out bound-
less schemes of achieve-
ment, and using up all his
strength and nervous force
never pausing to think what
unseen danger may threaten
him from behind.
Mighty few hard
working men ever stop to
realize that the headaches
and dizzy sensations, the
feelings of weakness
and incapacity that
come over them at times are the forerunners of serious
disease.

More men would succeed in carrying out
their life purposes if they would not trust their
constitutions in strong, forceful, high con-
dition, without waiting until disease has
plunged its axe into their vital organs. If
a man who is using up his working vitality
hyster than his nutritive powers supply it,
will use Dr. Pierce's Golden Medical Discovery
as an adjunct to his daily meals, it will
give the digestive organs power to take
the elements which strengthen the vital
organism and build up healthy blood.

It revitalizes every organ and tissue of
the body, purges bilious poisons out of
the circulation, invigorates the nerve cen-
ters and the muscular system and makes
a man altogether a man—full of ambition,
energy and pluck.

Mr. Jos. Henderson Dirblun, of St. Josephine
Street, New Orleans, La., writes to Dr. Pierce:
"I was ailing for some years, suffering from
dyspepsia, a tired feeling and loss of energy and
appetite. I tried one bottle of Dr. Pierce's
Golden Medical Discovery and found great relief.
I took two more bottles, three in all, and
one or two bottles of the 'Pelle's,' when I
found myself in good health again. I recom-
mend Dr. Pierce's Golden Medical Discovery to
do all that it is claimed to do."

In many cases where constipation is one
of the aggravating causes of disease, Dr.
Pierce's Pleasant Pellets should be used in
conjunction with the "Discovery." They are
the simplest and most perfectly natural
laxative ever invented.
It is a dealer's business to sell you what
you ask for—not what he prefers for selfish
profit's sake to sell.

A press correspondent, who was at
the signal station about the same time,
also heard sounds resembling a can-
nonade. The wind was in the right di-
rection to carry the detonations to him.
It seems certain that the fleet the
Haytien gunboat saw passing Cape
Maysi, going northward, found its op-
portunity of turning backward across
the front of an opposing force.

FROM ANOTHER SOURCE.

Port-au-Prince Dispatch Says Sampson
Bombarded Santiago.
Port-au-Prince, Hayti, June 1.—Late
yesterday afternoon an American squad-
ron composed of 14 war ships, of which
the cruiser New York displayed the flag
of Rear Admiral Sampson, and a num-
ber of torpedo boats, began a bombard-
ment with heavy guns of the forts and
the harbor of Santiago de Cuba. The
American fire was directed principally
against the forts and the harbor.
The forts of Morro Castle, La Zecapa
and Punta Carda suffered especially.
The cannonading was very persistent

and cannot have failed to be destruc-
tive. It lasted nearly three hours.
The town, which is situated near the
inner end of the harbor, escaped damage.
The Spanish authorities maintain
strict silence as to the number of vic-
tims, who are apparently numerous.

DISCREDITED.

Government Officials Do Not Believe
There Was an Engagement.
Washington, June 1.—No advice
have been received by the navy depart-
ment of an engagement at Santiago and
the officials discredit the report.

RELIEF POLICY.

President Preparing to Send Help to
Starving Cubans.

Washington, June 1.—The significant
statement was made by a cabinet officer
last evening that no news had been re-
ceived since Monday morning from Com-
modore Schley directly, and that now it
was believed that nothing would be
heard for two or three days at least.
This is taken to mean that Schley prob-
ably will await the arrival of troops be-
fore undertaking any active move on
Santiago.

It was plainly anticipated in some
quarters that he might, through posses-
sion of some information that would
tend to neutralize the strength of the
enemy's position, make a bold attempt
to enter the harbor of Santiago and de-
stroy or capture the Spanish squadron.

Such a movement on the part of
Schley would unquestionably be in pur-
suance of the president's policy to send
a helping hand to the starving recon-
centrados. The Spanish squadron
might be kept within Santiago harbor
until the end of the war without seri-
ously endangering an American life, and
because of its distance and isolation
from Havana, Santiago City has little
to attract a military attack. But, lying
in the very midst of the insurgent sec-
tion of the island, the town would af-
ford a splendid base for the distribution
of supplies to the families of the insur-
gents and to the reconcentrados, who
still drag out a miserable existence in
the interior.

Already the president has begun to
prepare to help those people and the
commissary general of the army has
prepared an estimate of \$5,000,000 for
the purchase of sufficient supplies to
feed 150,000 reconcentrados for six
months.

For the time being it is felt that the
real field of action is removed from
Washington and is centered with the
troops, now advancing under orders
from here, and with our ships.

The time of preparation has gone by,
and it remains only for preparations to
be carried into actual effect. A leading
naval official pointed to his desk, which
was clear of papers and documents, and
remarked that all the preparatory de-
tails were now well along, and that so
far as the authorities here were con-
cerned they had only to wait for the
execution of the preparations hereto-
fore matured.

The commanders, military and naval,
have been given wide latitude, as the
authorities here fully appreciate that
battles cannot be fought in advance on
paper. All that has been attempted is
to outline a campaign and make the
fullest provision for adequate forces,
ample supplies and the fullest co-opera-
tion between the navy and army, in the
successful execution of the plans. The
real blows are for the commanders to
strike, and in the execution of this part
of the programme the authorities here
can take little part. It is for this reason
that they regard themselves now rather
as spectators of what is about to occur.

DISAPPOINTED.

Number of Regiments Who Expected to
Be Ordered to the Front.

Chickamauga National Park, Ga.,
June 1.—Much to the disappointment
of a number of volunteer regiments here
who think they are ready to go to the
front no orders have been received for
the movement of our commands addi-

tional to those mentioned yesterday.
The Southern and the Western and At-
lantic railroads moved four regiments,
two each, this morning. They were the
First District of Columbia, One Hun-
dred and Fifty-seventh Indiana, Second
New York and the First Ohio infantry.
The Fifth Maryland, Sixty-ninth New
York, Third Pennsylvania and First Illi-
nois will leave tomorrow.

Orders have been issued and are ex-
pected today from Washington that all
regiments of volunteers must be re-
cruited to the full strength of 1,307 of-
ficers and men, and recruiting officers are
to be detailed at once to secure these re-
cruits. These recruits will absorb nearly
40,000 of the president's second call
for volunteers.

Inspector General Breckinridge yester-
day reviewed the Third division of
the first corps. The division presented
at review a more satisfactory appear-
ance than either the First or Second in-
asmuch as the regiments in the Third
division have more generally been
equipped and uniformed than the
others. It was a sight that warmed up
the martial spirit of the old warriors
who witnessed it and one officer in the
enthusiasm of the moment said that
"No nation on earth could make such a
showing in 90 days time."

The Second Nebraska, the Pennsylv-
ania and the Ohio regiments have re-
ceived their pay from their respective
states for the time they were in camp
prior to being mustered into the gov-
ernment service. The amount paid the
Pennsylvania troops is about \$90,000,
the payroll of the Ohio troops amount-
ing to about \$150,000, while the Nebras-
kans only received \$5,980. The West

Virginia and one regiment of Illinois
troops are to be paid this week, the
total payrolls amounting to about \$300,-
000.

The First Mississippi infantry, com-
prising 1,000 officers and men, in com-
mand of Colonel George Govan arrived
yesterday. An incident on the arrival
of the Mississippians created consider-
able enthusiasm. When their trains
pulled in at the Central depot there
were several hundred of the northern
and western volunteers there waiting
for the park trains. The Southerners
got out of the train and gave their
northern comrades the "rebel yell" by
way of assuring them that they were
ready to fight with them to the last
ditch.

The First Ohio cavalry has received
their full complement of uniforms,
bridles, saddles, etc. They have re-
ceived only a part of their horses. It
was announced that by Monday they
will be fully equipped, including horses
and arms.

The First cavalry, Illinois volunteers,
has arrived. Colonel E. C. Young is
in command. The arrival of the First
Illinois completes the cavalry brigade
here, the other two being the First Ohio
and Colonel Grigsby's cowboy regiment.

NOT APPREHENSIVE.

Naval Officers Think Little of the "For-
midable" Cadiz Fleet.

Washington, June 1.—The frequent
reports from Spain through other coun-
tries to the effect that a formidable fleet
is being prepared at Cadiz to sail for the
West Indies in aid of Cervera, causes
little apprehension here. Naval officers,
through private means of communica-
tion, have pretty well satisfied them-
selves that the Cadiz fleet is a paper
fleet. In other words, its offensive
power is altogether illusory. More than
half of the war vessels whose names ap-
pear so frequently in the press dispatches
as formidable war craft are of anti-
quated type.

In addition most of these vessels are
broken down in engines and boilers. In
their reckless disregard of the simplest
precautions for the preservation of the
complex machinery of a warship, the
Spaniards are excelled by no people and
it is well known that they have been
obliged to hire British engineers to run
their engines whenever they did run.
There are some vessels, although a very
few, at Cadiz of modern type but they
are not numerous nor powerful enough to
give our navy any serious concern.

Of course it is not to be understood
from this that our naval officers are
neglecting to take precautions against
surprise at Santiago. They have thrown
scouts well out to the eastward of Cuba
so that they may receive quick notice if
any of the Cadiz fleet was foolish enough
to have started a day or two ago for the
West Indies, as is now reported from
Europe.

NEWS FROM GARCIA.

Has Ten Thousand Men Well Equipped
and in Good Spirits.

Key West, June 1.—Couriers from
Cuba yesterday brought highly en-
couraging reports from General Calixto
Garcia's army. Garcia alone, it is said,
has 10,000 men, better equipped than
ever before, except in the matter of
clothing, and they are in excellent
spirits. Five thousand men, it is added,
occupy territory along the northern
coast near Manita. The Spanish troops
have withdrawn to Santiago, Holguin
and Manzanillo and General Garcia still
holds his headquarters at Bayamo.
General Mario Moncal has been

obliged to abandon his contemplated at-
tack on Holguin, province of Santiago
de Cuba, General Lugue of the Spanish
army, having thrown 10,000 men into
the city and strongly fortified neighbor-
ing hills.

PEURO APPRAISED.

First Prize Captured Formally Seized by
the Government.

Key West, June 1.—Fifty-three ca-
dets from the naval academy at Annapo-
lis, composing the first class, which has
not yet graduated, arrived yesterday
afternoon on the City of Key West and
will be distributed among the various
ships of the fleet.

The appraisal of the prize ship
Pedro, which has been formally seized
by the government, has been made by
the naval board of appraisal yester-
day afternoon on the City of Key West and
its value has been fixed at \$200,000. The
Pedro was captured by the flagship New
York off Havana the first day of the
blockade. She was first sighted by the
Mayflower, which informed the flagship,
whereupon the latter put off and cap-
tured her.

Mr. W. J. Taylor the British consul
here has received a cablegram from Mr.
Alexander Gollan, British consul gen-
eral at Havana, in the following terms:
"Please warn British correspondents of
newspapers who may be in Key West
with the intention of coming to Cuba,
to avoid attempting to do so, and es-
pecially by the means adopted by
Knight, Robinson and Whigham, all of
whom were arrested and are now in
prison. It is needless to say that this
recommendation applies with still greater
stringency to correspondents who are
American citizens. Give all possible
publicity to this."

The three correspondents named in
the despatch crossed to Cuba in news-
paper tugs and landed from small boats,
only to be immediately captured.

Behind Closed Doors.

Washington, June 1.—The senate re-
mained in secret executive session for
three hours yesterday. The entire time
was given to a rather free discussion of
the Hawaiian question based on a mo-
tion declaring it to be the sense of the
senate that the question of annexation
should not be discussed in open session.
At the conclusion of the debate the sen-
ate by viva voce decided not to pursue
the subject further except behind closed
doors.

RECIPROCITY.

Agreement Signed Between United States
and France.

Washington, May 31.—The United
States and France have concluded the
first commercial agreement entered into
under section 111 of the Dingley tariff
law. The negotiations were concluded
when Ambassador Cambon, in behalf of
France, and Hon. John Kasson, recip-
rocity commissioner for the United
States, affixed their signatures to the
formal agreement. The particular ad-
vantages secured by the United States
are on meat products and land com-
pounds, France reducing her rates one-
half on meat products and about one-
third on land compounds. The chief
benefits to France are in reduction in
rates on brandies, stilled wine, vermouth
and works of art.

WEARY OF THE WAR

Spain Would Be Willing to
Accept Intervention by
the Powers.

UNDER SHAM PROTEST

Independence Would Be
Granted to Cuba.

The Island Has Always Been a Drag on
the Mother Country and Drained It of
Treasure and Blood—Silveira Party
Pledged to a Policy of International
Reform and Reconstruction.

Madrid, June 1.—Rumors abound point
to the fact that the Spaniards are weary
of the war. Senor Sagasta's allusions
in congress to an honorable peace have
been taken as implying Spain's willing-
ness to accept the mediation of the great
powers. Senor Romero y Robledo
promptly snapped out: "People in a
state of war do not talk peace, honorable
or otherwise, unless they are bent
that way. Seeking peace means carry-
ing on a half hearted war."

Senor Gamazo's very blunt refusal to
take on his shoulder responsibility for
the political course of the cabinet, con-
fining his connection therewith to the
administrative functions of his portfolio
—public works—points in the same di-
rection.

Last night a correspondent had a con-
versation with a distinguished member
of the Silveira party, who very candidly
admitted that it would be a good thing
for Spain if she were free from Cuba.

"Cuba," he said, "has always been a
drag on Spanish resources. We get
nothing as a nation from it, but it has
on the contrary drained us of our best
blood and money. True, in the old
evil days individuals made large for-
tunes out there, but their rapacity,
greed, bad government and cruelty
have brought nothing but shame on
the mother country. It will, therefore,
be good for Spain when the last con-
necting link is broken. Of course any
proposal to cut the cable will be most
unpopular for the government which
has had the boldness to propose it, but
sooner or later it must come to that."

It is believed that should the powers now
intervene Spain will, under sham pro-
test to save her face, consent to Cuban
independence, provided the power guar-
antee that island's independence from
the United States. Should this come
about the new Sagasta ministry, com-
posed as it is of very discordant ele-
ments, will dissolve by itself, if not as-
sisted in that operation by the sham,
as well as by the real indignation of dif-
ferent sections of the population. The
will thus be cleared for a Silveira min-
istry, pledged to a policy of international
reform and reconstruction.

There is little doubt as to Senor Sil-
veira being one of the most far sighted
and capable Spaniards in public life to-
day. In addition to his great ability
he is believed to be thoroughly honest
and to be supported by men who are all
anxious to purify the home adminis-
tration from the blots which have made it
a by word abroad and a laughing stock
at home.

BARCELONIANS.

They Would Like to Invite the Yankee
Admiral to Dinner.

Barcelona, June 1.—All Barcelona is
heartily sick of the war. The people re-
gard it as merely a continuation of the
Cuban war, which has paralyzed busi-
ness for three years. Recently the gov-
ernment called upon the manufacturers
here to voluntarily contribute \$60,000
for the defense of the town. They re-
plied that they had already paid most
of the expenses of the government and
of the defense of Spain, adding: "If
the Yankee admiral comes here, we
shall invite him to dinner."

Alongside the ironclad Numancia,
orders to hurry the preparations on
which have just been received, lies the
Covadonga of the Compania trans-
Atlantica line. Her masts and two fun-
nels have been painted black and she is
ready to go to Cadiz for her armament.
As additional defenses here the gov-
ernment is hastily erecting six large
guns, dated 1881, which have just been
mounted at Barcelona. Platforms for
three enormous guns are being erected
with all speed. The guns will cover the
harbor mouth, with a range of 200
yards.

LONGEST CURVE.

It Is Located One Mile From Upper
Sandusky.

Upper Sandusky, O., June 1.—The
largest railroad curve in Ohio, possibly
in the United States, starts one mile
south of here on the line of the Colum-
bus, Hooking Valley and Toledo. It is
two and one-half miles in length.
Should the circle of which the curve is
a part be completed a train would have
to travel 29 miles to get around to the
starting point. The curve is so exten-
sive and so scientifically constructed
that trains run at as great speed as 60
miles per hour over it.

There is general condemnation of the establishment of "canteens" at Chickamauga, or other places where troops are encamped. Alcoholic stimulants can not be other than detrimental to these troops who are being made ready to do service in Cuba or a similar climate.

COLUMBUS is still adding to her reputation. She rounded up Memorial day with a prize fight. Two colored bruisers were paid \$10 for going to a selected spot just outside the corporation and pounding each other as long as they could endure. About 500 of the elect of Columbus were witnesses. One week the Grand Army encampment, the next week a prize fight. Wonder what the next attraction will be!

159th Indiana.

The 159th Indiana regiment which contains the volunteers from this county now camped at Dunn Loring, Va., are being put through some very thorough drill work, which will make them the better soldiers. One of the members of Company D in writing to the Washington Gazette says: "The 159th boys are all equipped in the clothing line now, having new uniforms, leggings, shoes and hats. Knapsacks, canteens and side arms will be issued next week. This will make their outfit complete."

"The hardest kind of drills are going on now, most being skirmish work. Yesterday morning Company D took a skirmish drill through the woods and underbrush for two miles, at times wading in water up to their knees. This however did not deter the boys, and they finished up looking very fresh considering the rough traveling they had. "Many of the boys in the 159th Indiana Volunteers are very much dissatisfied with their Colonel, and for no other reason than that he demands strict discipline. The regiment is fast showing the good effects of his management, and in time to come those same men will be the loudest in their praise for Colonel Barnett."

THE SOUTHERN CROSS.

Changing Position in the Heavens of This Celebrated Constellation.

If Job were to rise from the dead and look upon the heavens, says Professor T. J. J. See in The Atlantic, he would see the constellations related to one another as of old, but he would find that the pole had shifted its position among the stars, and if an immortal could witness the grand phenomenon which the precession of the equinoxes produces in about 12,900 years he would find the heavens so altered that the former aspect could be recognized only by an understanding of the changes which had intervened.

As Humboldt justly remarks, the beautiful and celebrated constellation of the Southern Cross, never seen by the present inhabitants of Europe and visible in the United States only on our southern coast, formerly shone on the shores of the Baltic, and can again be seen in that latitude in about 18,000 years. The cross will then be visible on the shores of Hudson bay, but at present it is going rapidly southward, and in a few thousand years will be invisible even at the extreme point of Florida.

In like manner the brilliant star Canopus in the constellation Argo, situated some 37 degrees south of Sirius, is now visible in the southern portion of the United States. In about 12,000 years it will cease to rise even in Central America. From the same cause, if Ptolemy were to again look upon the heavens at Alexandria, he would be unable to recognize Alpha and Beta Centauri, which he easily saw and catalogued in the time of Hadrian. At present these magnificent stars are just visible at the pyramids, near Cairo, and in a few more thousand years they can be seen by dwellers on the Nile only in upper Egypt.

Taking Time by the Forelock. "Ma, can I go over to Sallie's house and play a little while?" asks 4-year-old Polly. "Yes, dear. I don't care if you do." "Thank you, ma," was the demure reply. "I've been."—London Fun.

M. L. Weekly made a business trip to Buffalo, Brown county Saturday.

Several from here attended decoration day at Freetown and Taylors Chapel.

Mrs. Wm. Brinkley went to Switzerland county Tuesday on a visit to friends and relatives.

Several gravel road contractors were here last week locating gravel for the purpose of bidding on the proposed Hamilton township gravel roads.

The people at this place are almost unanimously again at a saloon at Freetown which fact we are glad to report. This makes the fourth time the people have had to canvass the township with remonstrances and have been successful each time.

I was seriously afflicted with a cough for several years, and last fall had a more severe cough than ever before. I have used many remedies without receiving much relief, and being recommended to try a bottle of Chamberlain's Cough Remedy, by a friend, who, knowing me to be a poor widow, gave it to me, I tried it, and with the most gratifying results. The first bottle relieved me very much and the second bottle has absolutely cured me. I have not had as good health for twenty years. I give this certificate without solicitation, simply in appreciation of the gratitude felt for the cure effected.—Respectfully, Mrs. MARY A. BEARD, Claremore, Ark. For sale by C. W. Milhous.

Bad management keeps more people in poor circumstances than any other one cause. To be successful one must look ahead and plan ahead so that when a favorable opportunity presents itself he is ready to take advantage of it. A little forethought will also save much expense and valuable time. A prudent and careful man will keep a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy in the house, the shiftless fellow will wait until necessity compels it and then ruin his best horse going for a doctor and have a big doctor bill to pay, besides; one pays out 25 cents, the other is out a hundred dollars and then wonders why his neighbor is getting richer while he is getting poorer. For sale by C. W. Milhous.

CORTLAND.

J. W. Holmes went to Cincinnati business Monday.

Miss Effie Holmes returned home from a visit to Walesboro last Friday.

Mrs. Everett Richards was seriously hurt by a cart running over her Saturday.

Jacob Bottorff is having the lumber put on his grounds for the building of a large barn. The contract was let to Collie Bottorff.

While Collie Bottorff was handling a revolver it was accidentally discharged. Though no damage was done it caused quite a little excitement.

The Sunday school convention held here was quite interesting. There was a good turnout and a good many visitors were here from abroad.

Deafness Cannot be Cured.

By local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing and when it is entirely closed, deafness is the result and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever, nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

Sold by druggists, price 75c. Hall's Family Pills are the best.

WEDNESDAY, JUNE 1, 1898.

There is general condemnation of the establishment of "canteens" at Chickamauga, or other places where troops are encamped. Alcoholic stimulants can not be other than detrimental to these troops who are being made ready to do service in Cuba or a similar climate.

COLUMBUS is still adding to her reputation. She rounded up Memorial day with a prize fight. Two colored bruisers were paid \$10 for going to a selected spot just outside the corporation and pounding each other as long as they could endure. About 500 of the elect of Columbus were witnesses. One week the Grand Army encampment, the next week a prize fight. Wonder what the next attraction will be!

159th Indiana.

The 159th Indiana regiment which contains the volunteers from this county now camped at Dunn Loring, Va., are being put through some very thorough drill work, which will make them the better soldiers. One of the members of Company D in writing to the Washington Gazette says: "The 159th boys are all equipped in the clothing line now, having new uniforms, leggings, shoes and hats. Knapsacks, canteens and side arms will be issued next week. This will make their outfit complete."

"The hardest kind of drills are going on now, most being skirmish work. Yesterday morning Company D took a skirmish drill through the woods and underbrush for two miles, at times wading in water up to their knees. This however did not deter the boys, and they finished up looking very fresh considering the rough traveling they had."

"Many of the boys in the 159th Indiana Volunteers are very much dissatisfied with their Colonel, and for no other reason than that he demands strict discipline. The regiment is fast showing the good effects of his management, and in time to come those same men will be the loudest in their praise for Colonel Barnett."

THE SOUTHERN CROSS.

Changing Position In the Heavens of This Celebrated Constellation.

If Job were to rise from the dead and look upon the heavens, says Professor T. J. J. See in The Atlantic, he would see the constellations related to one another as of old, but he would find that the pole had shifted its position among the stars, and if an immortal could witness the procession of the equinoxes produces in about 12,900 years he would find the heavens so altered that the former aspect could be recognized only by an understanding of the changes which had intervened.

As Humboldt justly remarks, the beautiful and celebrated constellation of the Southern Cross, never seen by the present inhabitants of Europe and visible in the United States only on our southern coast, formerly shone on the shores of the Baltic, and can again be seen in that latitude in about 18,000 years. The cross will then be visible on the shores of Hudson bay, but at present it is going rapidly southward, and in a few thousand years will be invisible even at the extreme point of Florida.

In like manner the brilliant star Canopus in the constellation Argos, situated some 87 degrees south of Sirius, is now visible in the southern portion of the United States. In about 12,000 years it will cease to rise even in Central America. From the same cause, if Pompey were to again look upon the Pyramids at Alexandria, he would be unable to recognize Alpha and Beta Centauri, which he easily saw and catalogued in the time of Hadrian. At present these magnificent stars are just visible at the pyramids, near Cairo, and in a few more thousand years they can be seen by dwellers on the Nile only in upper Egypt.

Taking Time by the Forelock.

"Ma, can I go over to Sallie's house and play a little while?" asks 4-year-old Polly.

"Yes, dear. I don't care if you do."

"Thank you, ma," was the demure reply. "I've been."

There is general condemnation of the establishment of "canteens" at Chickamauga, or other places where troops are encamped. Alcoholic stimulants can not be other than detrimental to these troops who are being made ready to do service in Cuba or a similar climate.

COLUMBUS is still adding to her reputation. She rounded up Memorial day with a prize fight. Two colored bruisers were paid \$10 for going to a selected spot just outside the corporation and pounding each other as long as they could endure. About 500 of the elect of Columbus were witnesses. One week the Grand Army encampment, the next week a prize fight. Wonder what the next attraction will be!

159th Indiana.

The 159th Indiana regiment which contains the volunteers from this county now camped at Dunn Loring, Va., are being put through some very thorough drill work, which will make them the better soldiers. One of the members of Company D in writing to the Washington Gazette says: "The 159th boys are all equipped in the clothing line now, having new uniforms, leggings, shoes and hats. Knapsacks, canteens and side arms will be issued next week. This will make their outfit complete."

"The hardest kind of drills are going on now, most being skirmish work. Yesterday morning Company D took a skirmish drill through the woods and underbrush for two miles, at times wading in water up to their knees. This however did not deter the boys, and they finished up looking very fresh considering the rough traveling they had."

"Many of the boys in the 159th Indiana Volunteers are very much dissatisfied with their Colonel, and for no other reason than that he demands strict discipline. The regiment is fast showing the good effects of his management, and in time to come those same men will be the loudest in their praise for Colonel Barnett."

Changing Position in the Heavens of This Celebrated Constellation.

If Job were to rise from the dead and look upon the heavens, says Professor T. J. J. See in The Atlantic, he would see the constellations related to one another as of old, but he would find that the pole had shifted its position among the stars, and if an immortal could witness the grand phenomenon which the procession of the equinoxes produces in about 12,000 years he would find the heavens so altered that the former aspect could be recognized only by an understanding of the changes which had intervened.

As Humboldt justly remarks, the beautiful and celebrated constellation of the Southern Cross, never seen by the present inhabitants of Europe and visible in the United States only on our southern coast, formerly shone on the shores of the Baltic, and can again be seen in that latitude in about 18,000 years. The cross will then be visible on the shores of Hudson bay, but at present it is going rapidly southward, and in a few thousand years will be invisible even at the extreme point of Florida.

In like manner the brilliant star Canopus in the constellation Argo, situated some 37 degrees south of Sirius, is now visible in the southern portion of the United States. In about 12,000 years it will cease to rise even in Central America. From the same cause, if Pompey were to again look upon the heavens at Alexandria, he would be unable to recognize Alpha and Beta Centauri, which he easily saw and catalogued in the time of Hadrian. At present these magnificent stars are just visible at the pyramids, near Cairo, and in a few more thousand years they can be seen by dwellers on the Nile only in upper Egypt.

Taking Time by the Forelock.
"Ma, can I go over to Sallie's house and play a little while?" asks 4-year-old Polly.

"Yes, dear. I don't care if you do."
"Thank you, ma," was the demure reply. "I've been."—London Fun.

I was seriously afflicted with a cough for several years, and last fall had a more severe cough than ever before. I have used many remedies without receiving much relief, and being recommended to try a bottle of Chamberlain's Cough Remedy, by a friend, who, knowing me to be a poor widow, gave it to me, I tried it, and with the most gratifying results. The first bottle relieved me very much and the second bottle has absolutely cured me. I have not had as good health for twenty years. I give this certificate without solicitation, simply in appreciation of the gratitude felt for the cure effected.—Respectfully, Mrs. MARY A. BEARD, Claremore, Ark. For sale by C. W. Milhous.
